

Mobile Inspector Gadget

MIG was designed and tested by R. Spec Certifications, a company with over 20 years of experience in inspections.

The MIG 8.5 software package features

- Create extensive library of inspection responses
- Applicable laws and standards available
- Inspection and PM templates for 20 different pieces
- Add questions on your own
- No typing necessary once configured to your needs
- Send inspections via print or email
- Runs on Windows XP / Windows Vista
- Can be used on your own laptop or PC
- Eliminate: typing, bad penmanship, making copies, arguing about what law does or does not apply
